REGISTER: <http://ClubRegistration.net>

BRING: Helmut (Snell SA2000 or newer), Valid driver's license, sun glasses, sun screen/block. Loaner helmets are available.

DETAILS: Florida Citrus Region (FLC) is hosting Round 7 of their 2009 Autocross series featuring the annual Ladies Day. The autocross is open to drivers of both sexes; however, "L-Class" drivers receive additional runs and special training – the perfect opportunity for a first-time autocrosser! The AX will be staged at the Lake County Sheriff's Training Facility located at 13000 Frankies Road near Tavares. Enter Frankies Road from the east; the road is not paved west of the facility. Full event details and maps to the AX site are available at <http://www.flcitrusregion.org>.

Autocross involves timed runs through a course defined by traffic cones and is usually staged in a large parking lot. Drivers get between six and eight runs through the course; penalty time is added for displacing cones during a run; only the best time is scored for the event. Cars are assigned to classes based upon car model, driver gender and car modifications, if any.

Drivers are responsible to provide tech inspection of their own vehicles; a verification inspection is conducted at the site on the morning of the event. Drivers are divided into two run groups; all drivers must "work the course" when they are not driving in their run group. Lunch is provided between the morning and afternoon sessions.
